

**PMO SECURITY RISK
MANAGEMENT**
™ FKA Praeventia

Training for Security Advisors, Focal Points and Managers

As a security advisor, focal point or manager for your organization, it is your responsibility to ensure the safety and well-being of your staff. In Lebanon, we see new threats and risks arising and this presents a challenge in our organization's ability to carry out their missions. Therefore, PMO Security Risk Management has adapted this training to fit the needs of managers and security advisors in Lebanon so they are better able to fulfil their duty of care to their staff.

We believe strongly in the need to make trainings more equally accessible while maintaining a high-quality standard. As such, we only work with certified trainers with current and relevant field experience. We use this experience to create, for your staff, recognizable and contextualized scenarios in our trainings.

Main Objectives:

- Meeting Duty of Care requirements at country and field offices
- Knowing what threats and risks your staff face and how to respond to them

When/Where?

- 23 November 2021 Citea Hotel Beirut, Lebanon

Cost:

- 600 USD per person

The course is rather intensive and requires more individual guidance. Therefore, for quality of training purposes, we have a 12 person capacity. If we receive a high demand for the training, we will schedule another course.

What we do

We provide quality security trainings with an emphasis on simulation and live action training. In any trainings, the physical part of the trainings is key. It gives the participants the opportunity to learn what their natural responses are and how to adapt them to unforeseen circumstances. PMO Security Risk Management has been actively involved in day-to-day support for NGOs and experienced the importance of practicing the skills learned on our trainings.

Our Mission

To accomplish a higher level of security awareness and preparedness for every staff member, irrelevant of their position. We believe this is the way forward for humanitarian organizations to be able to successfully continue and develop their operations.

Who we are

We are a team of experienced safety and security advisors within the humanitarian community. All our staff, including external trainers, have extensive experience in facilitating safety and security related trainings for humanitarian organizations.
